<p>Jakaeden Frizzell Strasbourg</p>	<p>Coaching is and will be a lifelong passion. It is important to me that coaches are given the tools and support they need so they can, in turn, support athletes at both the high performance and grassroots levels. I run the province's largest beach volleyball club with centres in Prince Albert, Saskatoon, Regina, and Swift Current. Within the club I oversee 15 coaches, some who are current national team athletes, who work within the NCCP system to achieve their various certification levels. Outside of my club's academy locations, I coach in small town centres to support young athletes who may not have the opportunity to have a certified coach. To further this, our club has recently developed and launched a new online coaching platform which allows us to coach athletes regardless of their location. I am a Masters of Sport Psychology candidate, a Registered Coach with the Coaching Association of Canada, am completing my Performance Coach requirements in the Comp-Dev stream, and have four years of university coaching experience and seven years of provincial team coaching experience. Outside of coaching, I run the legal education program at the Law Society of Saskatchewan with the mission of supporting continuing competence for our province's lawyers, and used to work at Sask Volleyball as the Referee Development Coordinator. My goal in putting my name forward for this board is to start making positive contributions to the coaching industry in our province outside of my sport of choice.</p>
